

## FOR CLIENTS

Australia's ONLY source of fully *pre-qualified* virtual businesses the Australian Virtual Business Network® (<http://www.avbn.com.au>) was established to provide clients with access to the highest quality virtual assistant and other virtual support services Australia has to offer. Members undergo a rigorous pre-screening process to ensure they possess the fundamentals of experience, skill and professionalism. This includes reference checking and online skills testing. Since working online is very different to running a "bricks and mortar" business, members must have been in practice for a minimum of three years and have at least five years experience in their area of specialty.

Members who meet our strict membership criteria and pass our testing process qualify for the CAVB (Certified Australian Virtual Business) designation.

With the trend towards "outsourcing your life" and "the 4 hour work week", clients run an increased risk of outsourcing to freelancers who aren't all they say they are. How do you know you're getting what you pay for?

When you're using the internet to find outsourced help due diligence is so important. At AVBN it's already been done for you with fully pre-screened members. If potential members don't meet our strict criteria and pass our pre-screening tests, they aren't permitted to join. AVBN is the only network that currently provides this full pre-screening of members. As a result, *only the highest quality, experienced virtual businesses are listed on our directories.*

Seeing this button on our member websites means you have access to virtual support providers who have already had due diligence carried out on them so you're guaranteed you're partnering with practices who are everything they say they are.

The network directories are designed to help clients through the minefield of sourcing support via the internet. Divided into both Speciality and Industry directories, you can search for a support provider who either has experience in your industry, or the specialist skills you require.

The Australian Virtual Business Network® is the only network in the world to *guarantee* to clients that all our members are fully checked, tested and quality assured. If you're looking to partner with any of our members, we would encourage you to check the Testimonials page on our site to see what others who have used our service and members think of the process and the quality.

Don't waste any more time or money on Google searches and Elance bidding wars. If you're serious about partnering with a Virtual Assistant, you're at the place that is serious about setting the benchmark for virtual businesses in Australia:

**The Australian Virtual Business Network... *you deserve the best!*®**

Head to the site and complete a Request for Proposal now to be partnered with the perfect virtual support provider for you and your business!
